MAKING POPULAR JELLY ROLL

Not a Difficult Dish to Prepare. Though Some Special Things Must Be Remembered.

Line the bottom of a very shallow pan with buttered paper, also grease the sides of the pan. Break three eggs into a bowl and beat until very light, adding gradually one cupful of sifted powdered sugar. Still beating hard, add alternately one-quarter of a teaspoonful of salt, two teaspoonfuls of cold water, one cupful of sifted pastry flour mixed with one scant teaspoonful of baking powder and, last of all, one tablespoonful of melted butter. Spread this mixture evenly over the papered pan and bake about twelve minutes in a moderate oven. Immediately remove the cake from the pan, reversing it on a board. Carefully peel off the paper, moistening it with water if it sticks. Cover quickly with jelly or jam which has been warmed just enough to admit of spreading. Roll, and pin a band of paper round it until the cake is cold. Then dust the top with powdered sugar. Spreading and rolling must be done quickly, as the cake will crack if rolled after cooling.

CHINA OF BLUE AND WHITE

Those Are the Fashionable Colors Just Now—Delft or Japanese Designs Desirable.

Along with the vogue of blue and white draperies and garden furniture has come the fashion for using blue and white china. For breakfast the chateaux of country homes are using plates, cups, saucers, toast racks, porridge bowls, salts and peppers of German porcelain decorated in Delft designs, and one easily carried outfit for serving breakfast in the bedroom consists of a round tray supporting a toast rack and flanked by depressions for milk, salt and pepper.

Afternoon tea sets of blue and white Japanese china are in dragon pattern. These sets, which may as well be used for breakfast as for luncheon, consist of plates in one size, cups and saucers, a sugar bowl, cream pitcher, teapot, chocolate pot, bowl for nuts or fruit and accompanying dishes, a pair of cake plates and a square shaped, good-sized clock to warn loitering guests of time's flight.

Currant Paste.
Get perfectly ripe red currants, stem, wash in cold water, drain and place in a kettle on the back of the stove, mashing so as to start the juice. When the juice flows freely, let it come to a boil and strain through a fine sieve or cloth. To one pint of juice add one pound of sugar and an inch of stick cinnamon, and when it again comes to a boil remove the cinnamon and thicken with three tablespoonfuls of rice flour, which have been dissolved in three tablespoonfuls of cold water. Stir constantly until the flour is cooked, which will require about ten minutes, then remove from the stove and pour into a dish which has been rinsed with cold water. When cold put into the ice box, serve with cream.

Cottage Pudding.
One egg, one cup sugar, one cup sour cream, scant teaspoon soda, teaspoon baking powder, flour to suit. Dissolve soda in the sour cream. Bake in gem pans. This ought to make sixteen.

Take one gem cake to a sauce dish (for one person). Put over cake a sauce made as follows: Take one cup sugar, add water like you were going to make a sirup (only much thinner); let come to a boil; add tablespoon cornstarch or flour dissolved in a little water; flavor with lemon or vanilla. This recipe makes a very decent layer cake put together with the following filling. Filling for Cake—Seven tablespoonfuls milk and one cup sugar. Cook seven minutes; beat until cool enough for cake.

Deviled Tomatoes.
Twelve fine tomatoes, pared and sliced nearly half an inch thick, yolks of 3 hard-boiled eggs, pounded; 3 tablespoonfuls melted butter, same of vinegar, 2 raw eggs, beaten light, 1 teaspoon sugar and half as much each of made mustard and salt, a pinch of cayenne; rub butter, pounded yolks, pepper, salt, mustard and sugar together, beat hard, add vinegar and heat to a boil; put this upon the beaten eggs and whip to a smooth cream; set in hot water while you broil the tomatoes over clear coals in an oyster broiler, lay this upon a hot dish and pour the scalding dressing upon them.

To Cook Cereals.

Every housewife dreads cleaning a kettle in which oatmeal or hominy has been cooked.

She will, no doubt, welcome this information.

First, grease the pan generously with lard and fill it with cold water.

Then add the cereal.

Lard prevents the cereal from adhering to the bottom and sides.

The cereal forms a thin scale which may be easily removed.

Bread Bake.
One quart milk, half loaf of bread, soaked very good, two well beaten eggs, half cup chopped nuts, any kind, half cup raisins, half cup currants, half cup sugar, little citron or chopped apples, pinch of salt. Grease a pudding dish and bake two hours. Very good.

Cup Cake.
One cup butter, two cups sugar, five eggs, two and one-half cups flour, one teaspoon soda, whites of eggs beaten separately; bake in patty tins.

Dumb Chills And Fever.

Douglasville, Tex.—"Five years ago I was caught in the rain at the wrong time," writes Miss Edna Rutherford, of Douglasville, "and from that time was taken with dumb chills and fevers, and suffered more than I can tell. I tried everything that I thought would help, and had four different doctors, but got no relief, so I began to take Cardui. Now I feel better than in many months." Cardui does one thing, and does it well. That's the secret of its 50 years of success. As a tonic there is nothing in the drug store like it. As a remedy for women's ills, it has no equal. Try it. Price \$1.00.

SUPPORT FOR THE TOMATOES

One Shown in Illustration, Used for Several Years, Has Given Entire Satisfaction.

The illustration herewith shows a tomato support that I have used several seasons with much satisfaction, as it takes so little time and trouble to place it, and performs its office so perfectly, writes Henry C. Little of Massachusetts in the Rural New Yorker. All that is required is three stakes 2½ feet long and one inch or more square, sharpened at one end, and notch cut on one side; at the other, just sufficient to hold the hoop up, and two barrel hoops of different sizes; a sugar barrel hoop and a flour barrel hoop work well, or hoops from

end and middle of flour barrel. Drive the three stakes on a slant on a circle around base of plant as much smaller than the smaller hoop's diameter as the difference in diameter of the two hoops. Place the larger hoop in place, in the notches on top, and then press in the smaller one till all is taut. At end of season I make a bundle of all the stakes, and another of the hoops, and hang up out of the way till wanted the next season. Mine have been used five seasons, and are still good.

POLE DRAG IS SERVICEABLE

Next Best Implement Where One Does Not Possess Land Roller—Easy of Construction.

If you don't possess a land roller, the next best thing is a pole drag. The one shown in the cut is better than a roller for leveling and pulverizing the soil. It is composed of three hardwood poles 6 inches through and 7 feet long, writes Fred O. Selby in the Farm and Home. They are fastened together about 2 feet apart by means of short pieces of chain. To hold the seat a piece of board is bolted to the middle of the first pole and allowed to extend slightly

A Serviceable Pole Drag.

beyond the last one. On top of this an old mowing machine seat is fastened, and the arrangement is such that while the seat is held in place the poles may work independently of each other. As the seat is bolted to the board, it can easily be removed, making the implement much easier to house when not in use. The drag should be drawn by a short piece of chain attached to the center of the first pole, as is indicated.

Good Roads & Farm Notes

It's the stray cocklebur that seeds the field for next year.

Never hoe or cultivate beans when the vines are wet with dew or rain.

A heavy crop of weeds will check the growth of the clover a great deal. Blood meal is rich in protein, peas are much richer in protein than corn.

Corn planted to secure a large yield of ears makes the most valuable silage.

The seeding of rape and turnips in corn has become an established practice.

Sow some clover; if nowhere else, sow in corn after the cultivation is over.

Alfalfa will grow on nearly all good, well-drained soils, but best on a rich, sandy loam.

The only good way to shock grain is in round shocks with one or two rap sheaves on top.

Pick cucumbers often and clean. If permitted to mature and make seed, the productivity of the vine stops.

Hoe, cultivate or rake the soil about once a week. Thus weeds will be killed before they have a chance to grow.

The sand vetch is smaller and more succulent than the common vetch, and has been tested but little in this country.

Cypress is said to be the best material for wooden silos, as it possesses unusual weather and water resisting qualities.

Bear in mind that corn fodder, or fodder corn, must not be cut early or it means a loss of a large part of its feeding value.

One lesson that the short hay crops of the past seasons have taught us is that a crop of hay can be raised along the roadside where weeds had their home before.

One of the Number of Metcalfe's Exclusives

This is a cut of Metcalfe's new Prosperity Shaper, which is going such a long way in decreasing the irritation of men folks' necks and tempers, by letting all fold collars be so ironed that the slides well in collar, and collars are given nice, smooth, oval edge. It is utterly impossible for a collar to crack or break in our laundering process. Our shirt department is one which we feel proud of; not only is work done right, but the shirts are put in Sanitary Covers. Our Dry Cleaning department is in the hands of skilled workmen.

We have flowers for all occasions. Remember that if you buy or contract for \$10 worth of coupon books, and take one during August and another when the Avalon is finished, the profits from the business, and more, go into the Avalon, a place of pleasure for Hopkinsville and surrounding country people.
